A photograph showing a close-up of two people in business attire shaking hands. The background is slightly blurred, focusing on the hands and forearms.

“We consider LCRA WSC Energy a partner, not just a power provider. When RGEN was facing wholesale power decisions, LCRA WSC Energy took the time to understand our situation and deliver the solutions needed to serve our growing communities. WSC Energy has proven itself to be a trusted and reliable partner to Rio Grande Electric and its members.”

**Roger Andrade**

*Rio Grande Electric Cooperative CEO*

## The LCRA WSC Energy difference

We combine the flexibility of innovative solutions with the security and reliability for which LCRA is known.

**Flexible contract terms:**

Ask about contract lengths from monthly, seasonal and up to 20 years.

**Competitive pricing:**

We offer cost-based or market-based price structures.

**Diverse products and services:**

From full requirements to block transactions, we tailor our solutions to match your needs.

LCRA has powered Central Texas for more than 80 years. It supplies electricity to cities and cooperatives that serve about 1 million Texans and their businesses and homes. LCRA maintains a diverse generation mix that provides customers with reliable, cost-effective power. LCRA Transmission Services Corporation, a separate nonprofit, owns or operates more than 5,200 miles of electric transmission lines and nearly 400 substations.
